University of Minnesota

Center for Magnetic Resonance Research

Standard Operating Procedure

C103-02 - Connecting PCs to CMRR server file shares

Connect to your server home directory

This will make a connection to your home directory on the servers.
Open Windows Explorer>Go to This PC>Click on the 3 dots in the upper right area of the Explorer Window>click on Map Network Drive

For an HST device, you will need to log in like this,

cmrr\(CMRR ID)
(CMRR Password)

Here is an example of mapping your home folder and/or a Dicom folder.

\\range6.cmrr.umn.edu\(CMRR ID)

\\naxos2.cmrr.umn.edu\dicom

If you are on a CMRR domain PC, you can simply use your CMRR ID without the **cmrr** in front of it.

At home, not on the VPN?
You must be on the CMRR VPN to connect to Windows file sharing from home.

Expired password?
Your password must be changed every year - if it has expired, you will not be able to connect. From a CMRR domain PC, you can visit https://www.cmrr.umn.edu/access choose my profile, and change CMRR server password.

Revision History

Revised by Mark Romain 8/29/25

SOP Number / Version:	C103-02 / 1.3
Approval Date:	07/21/2015
Implementation Date:	07/21/2015
Author/Owner:	Brian Hanna / John Strupp

Version Number	Approval Date	Change from Previous Version
1.0	07/01/2015	
1.1	07/21/2015	Standard formatting
1.2	02/11/2016	Added connection to naxos/dicom
1.3	03/18/2020	Updating for naxos2 and user@cmrr.umn.edu
