C104-02 - Connecting Macs to CMRR server file shares

Connect to your server home directory

This will make a connection to your home directory on the servers.

The connection is made using Windows file sharing (also known as Samba).

With the Default Finder menu open, click on the Go menu> click on Connect to server>type in the server address

smb://range6.cmrr.umn.edu/(CMRR ID)

Click the + button to save this address as a Favorite

Double click on the Favorite address

Connect as Registered User

ID: CMRR ID

Password: CMRR password

Click Connect

Expired password?

Your password must be changed every year - if it has expired, you will not be able to connect.
See instructions for changing your CMRR password.

At home, not on the VPN?

You must be on the CMRR VPN to connect to Windows/Samba file sharing from home.
