C104-02 - Connecting Macs to CMRR server file shares

Connect to your server home directory

This will make a connection to your home directory on the servers.
The connection is made using Windows file sharing (also known as Samba).

Use your CMRR userid and password
Open Finder
Choose menu item Go -> Connect to server
Server address
smb://range1.cmrr.umn.edu/userid
Click the + button to save this address as a Favorite
Double click on the Favorite address
Connect as Registered User
Name: CMRR userid
Password: CMRR password
Click Connect

Expired password?

Your password must be changed every year - if it has expired, you will not be able to connect.
See instructions for changing your CMRR password.

At home, not on the VPN?

You must be on the CMRR VPN to connect to Windows/Samba file sharing from home.
